

David James

BSc. (Hons), MREC CertRP

**Associate Director of Business
Development & Staffing**

(+1) 984 444 9907

djames@compass-ls.com

“David James provided an awesome service. He had a strong awareness of the medical affairs landscape, and job roles. He offered sound advice, and was instrumental in landing my new role. David took his time to forge a relationship with me, and understand my requirement. Most importantly, he was realistic and supportive. I’ve had many conversations with different recruitment consultants and agents. However, very few are of the same calibre of David.”

Vice President

MEMBER

American Staffing Association

David is an Associate Director at Compass Life Sciences, based out of our US HQ in Raleigh, North Carolina. With a track record supporting US and global businesses engage niche and illusive talent within the Clinical and Medical arena, David has built a significant network of industry professionals at all levels of experience. Having successfully delivered on a range of staffing projects, both locally and internationally in areas including **Medical Affairs, Clinical Research & Market Access**, David is able to draw on his experience to understand and articulate complex assignments to the candidate market and ensure maximum engagement with even the most illusive talent pools.

Having joined the company in 2018. David is an expert in his field, bringing a wealth of knowledge to the table. He takes a keen interest in his client’s needs, which has resulted in continued success and many positive long-standing relationships. David also has previous recruitment experience within the Digital Health, MedTech & Primary/Secondary care markets.
